## About Me

---

I am a person who is responsible in carrying out my duties and has high discipline. With an educational background in software engineering, I have an understanding of the programming knowledge needed to develop in the world of IT work.

## Education

---

**2021 - 2024 | SMKN 4 Malang | Software Engineering**

This major prepares students to have the ability to create a program or system that has selling value such as websites, mobile apps and games.

## Experience

---

**9 January 2023 - 15 January 2024 | Intern | PT. Sekawan Media**

Work as a backend responsible for creating features in the application and maintaining client applications.

## Portofolio

---

**January 2024 - February 2024 | PICTSEA | Aplikasi Berbasis Galleri**

In this project, I was responsible for creating a frontend mobile app using react native and integrating it with a client side based back-end.

**Mei 2024 | API Cashier**

This API enables seamless and efficient communication between the frontend and backend, supporting various types of frontend applications, including web, mobile, and desktop.

## Skill

---

**PHP | HTML | CSS | JS | LARAVEL | CODEIGNITER | NODE JS | REACT NATIVE**
